The company MSM ENGINEERING leaving 17 years behind since its establishment has reached its current corporate structure, parallel to the progress of the industry and demand diversification, developing its marketing and manufacturing portfolio.

Considering both the technological developments in the industry and the consumer trends, our company keeps updating manufacturing and marketing abilities in order to carry out activities such as manufacturing, marketing and sales of cable protecting, carrying and ending systems.

Besides these, extending our network in the globalized world further, strengthening our import activities we have done necessary agreements with foreign manufacturers and suppliers in order to be able to provide the highest quality product and services to our clients.

Cable carrying conduits and related accessories are our main area of activity. In order to meet the ever increasing use in recent years and consequently increasing demand in our country we have expanded our portfolio of the Ex-Proof electrical materials.

Looking forward to a fruitful cooperation...
